SaRS2014 – Don’t Panic!
No cause for alarm...

Thursday, 2nd October 2014, The Marcliffe Hotel & Spa, Pitfodels, Aberdeen AB15 9YA

IF you can keep your head when all about you
Are losing theirs and blaming it on you
you’ll be grateful you attended the SaRS 2014 conference: DON'T PANIC! NO CAUSE FOR ALARM

This conference take you from the situation in the Piper Alpha control room on 6th July 1988 up to date with the latest developments in alarm management, human factors training, decision making and preparing for emergencies.

The conference convened on two subjects:
- Alarm design and management
- Behavioural aspects of emergency response

The conference is aimed at cross industry learning for safety and reliability engineers in the oil industry and delegates for other major accident industries. In keeping with the traditional format of Safety and Reliability events, this conference encourages the formal presentation of expert knowledge in presentation sessions integrated with informal discussion and interactive sessions.

Programme:

0900    Registration
0930    Introduction from Dr Paul Davison and Dr Dave Holland from SaRS
0940    Keynote session: Geoff Bollands “In the Piper Alpha control room”
1030    Simon Day & Howard Harte (HSE)“Managing the emergency”
1120    Coffee break
1140    Stewart MacIntyre (ABB) “Alarm system design”
1220    Lunch break
1320    Richard O’Neill (Core Oil & Gas) “Managing alarms”
1400    Andrew Miller (Bristows) “Helicopter safety”
1440    Coffee break
1450    Rhona Flin (University of Aberdeen) “Decision making in an emergency”
1530    Tim Southam (AMEC) “Engineering for emergency response”
1600    Closing Session and questions and answers panel

Please check the SaRS website http://www.sars.org.uk/events/sars2014dontpanic/ for speaker announcements and abstracts

You should attend this event to:
- hear a range of views from key professionals in alarm management and behavioural aspects of emergency response
- meet professionals and experts in safety and reliability and the related disciplines and get to discuss their experiences and share insights concerning the delivery of effective and safe systems in emergency situations
- discuss safety and reliability best practice with peers and experts
- hear about cutting-edge methods, techniques and research
- network with like minded practitioners and experts from cross-industry domains

Who should attend:
- Safety and Reliability Managers and Practitioners
- Consultants and Stakeholders
- Industry Specialists
- Academics and Students
- Safety and Reliability Engineers
